

USER PERSONA

A QUICK PROFILE OF YOUR TARGET AUDIENCE

SNAPSHOT

Name

Jonathan Pogi

Age

20

Gender

Male

Location

Philippines

Occupation

UNIVERSITY STUDENT

Background

Jonathan is a university student who spends long hours studying, writing assignments, and reviewing lessons. Music helps him stay focused and motivated during study sessions. He prefers applications that are simple, clean, and easy to use without unnecessary distractions. Because he usually multitasks while studying, he values fast playback controls and smooth navigation between songs.

PERSONAL

Listening Habits

- Listens mainly while studying or doing assignments
- Uses headphones in quiet environments
- Prefers continuous playback for long study sessions
- Usually listens to calm or familiar music

Hobbies and Interests

- Studying and academic research
- Watching educational videos
- Occasional gaming
- Listening to music while focusing
- Productivity and self-improvement content

GOALS

Primary goals

- Listen to music while studying
- Stay focused without distractions
- Quickly access songs and playlists
- Maintain smooth, uninterrupted playback

Preferences

- Simple and clean interface
- Fast playback controls (play/pause/skip)
- Easy access to favorites and recently played songs
- Minimal distractions in UI
- Clear feedback when interacting with controls.

CHALLENGES

Main pain points

- Overly complicated music apps with too many buttons
- Slow navigation between playlists or songs
- Distracting UI elements while studying
- Hard to quickly find or switch songs

Frustrations

- Overly complicated music apps with too many buttons
- Slow navigation between playlists or songs
- Distracting UI elements while studying
- Hard to quickly find or switch songs

Name

Trident Pogi

Age

19

Gender

Male

Location

Philippines

Occupation

UNIVERSITY STUDENT

Background

Trident is a working professional who listens to music throughout the day. She enjoys organizing playlists, discovering new tracks, and customizing her listening experience based on her mood and activities.

PERSONAL

Listening Habits

- Listens during work, commute, and relaxation
- Frequently skips and changes songs
- Uses music to control mood and focus
- Multitasks while listening

Hobbies and Interests

- Music discovery and playlist building
- Fitness and commuting with music
- Social media and trending content
- Productivity and workflow optimization
- Streaming music daily.

GOALS

Primary goals

- Explore and manage a large music library
- Build and organize playlists and favorites
- Control playback quickly and efficiently
- Discover new music easily

Preferences

- Advanced playlist and queue management
- Fast and reliable search functionality
- Favorites system for saving songs
- Responsive and modern interface
- Clear visual indicators for active songs

CHALLENGES

Main pain points

- Limited control over playlists in basic apps
- Slow or laggy search features
- Lack of customization in music experience
- Poor feedback when switching songs

Frustrations

- When apps feel “locked” or too restricted
- When she can’t easily organize or reorder playlists
- When music apps buffer or lag during switching
- When UI feels outdated or unintuitive
